

CESA

JOB SHADOW INITIATIVE

 Hands-on activities that encouraged teamwork, creativity and problem solving.

 Mentorship and career guidance from our professionals, sharing real world experiences.

 Engaging quizzes that inspire critical thinking and strengthened learning.

 Exposure to engineering concepts and the skills that shape the built environment

CESA and SLS proudly hosted a Job Shadow Initiative for Realogile High School learners, providing them with valuable insight into the engineering profession. Through mentorship, career guidance, and real-world exposure, the initiative empowered students to explore future opportunities and gain a deeper understanding of the skills and innovation shaping the built environment.
